MetroGuard AI

Phase-I run guide - Windows Command Prompt

1. First-time setup

Open Command Prompt in the **metroguard_phase1** folder and run:

```
python -m venv .venv
.venv\Scripts\python.exe -m pip install --upgrade pip
.venv\Scripts\python.exe -m pip install -r requirements.txt
```

2. Start the dashboard

```
.venv\Scripts\python.exe -m streamlit run dashboard.py
```

Open the Local URL shown in Command Prompt. Use Ctrl+C in Command Prompt to stop the dashboard.

3. Run a video from Command Prompt

```
.venv\Scripts\python.exe run_video.py ^
  "C:\Users\akhia\Downloads\metroguard1\data\crowd\people_walking.mp4" ^
  --max-frames 150
```

The annotated video is saved in data\output.
